## ABOUT ME

GoHighLevel CRM & Automation Specialist with 3+ years of hands-on experience in building scalable CRM systems, high-converting funnels, and advanced workflow integrations. I help businesses streamline operations and automate lead management through revenue-focused systems. My expertise lies in transforming complex processes into structured, fully automated solutions.

## EXPERIENCE

### CRM & Account Setup

Experienced in complete GoHighLevel account setup from scratch, including sub-account configuration, custom fields, pipelines, lifecycle stages, calendars, and user permissions. I build structured CRM systems aligned with the client's sales process to ensure organized lead management and smooth operations.

### Funnel & Lead Generation Systems

Skilled in creating high-converting funnels, landing pages, forms, surveys, and appointment booking systems inside GoHighLevel. I design automated lead capture and follow-up sequences that increase engagement, booked calls, and overall conversion rates.

### Complex Workflows & Integrations

Proficient in building advanced automation workflows with conditional logic, trigger-based actions, tagging systems, and multi-step sequences. Experienced in integrating third-party tools, payment gateways, email/SMS services, and API connections to create seamless and fully automated business systems.
